## "Hechts' Greater Stores,"

513-515 Seventh Street.

## \$8.95 signs come down tomorrow, which ends the most important sale of men's clothing ever inaugurated in this city.

It is an astonishing fact that despite the continued cool, rainy weather, these sales have been a most satisfactory success. And we stop them for no other reason than that the lots are becoming depleted.

Tomorrow we add several hundred flannel coats and pants and fancy woolen suits to the lot, taken out of our regular stock. This addition makes the choice newly good.

### Flannel coats and pants at \$8.95

—are in all the newest shades—the most fashionable effects. The pants have liberal outlet at the bottoms for those who want to wear them "turned up." The coats will retain their shape, because they were made by men, not women, and as a result are "worked" to perfection.

### The woolen suits at \$8.95

—are in an immense assortment. The variety of patterns will amaze you; just the same patterns as you are shown by custom tailors, and for which they ask \$25, and give you no more satisfaction. In no season before have we been able to make you such a splendid offering as this.

### Men's \$5 flannel pants, \$2.95.

A very splendid opportunity to buy an extra pair of flannel pants at a considerable saving. Choice of several light and dark shades in striped flannels, which are the regular \$5 pants, to go for \$2.95.

### Khaki and white pique vests, \$1.50.

We shall put on sale tomorrow morning about 200 Men's Khaki and White Pique double-breasted vests at \$1.50 which are being sold just now by other stores for \$2.50. The Khaki vest is particularly stylish just now.

If you haven't the ready money that needn't deter you from buying clothing—or anything else—here. We shall be pleased to open an account with you and allow you to pay as you can.

### Get your straw hats tomorrow.

200 dozen, and that means 2,400, straw hats for men and boys—both yachts and sailors, in all sorts of braids and with plain and fancy bands, such as sell at 75c and 98c elsewhere, will be put on sale tomorrow morning at..... 49c

600 Men's and Boys' Straw Hats and Children's Sailors of split, Jumbo, Mackinaw, and Milan braids with plain and fancy silk bands such as are being sold for \$1.25 to \$2 about town 98c for..... 98c

200 Children's Washable Tan O'Shaunters of duck, crash, pique, with silk bands; all very stylish hats; such as sell for 25c; to go on sale tomorrow at..... 19c

### IN BEHALF OF THE POOR

#### District Commissioners Reapportion the Relief Fund.

Unexpended Balances of the Allotment for 1900 Assigned to Various Charities—Aid Association for the Blind to Receive \$490—Health Officer Woodward Requests Increase.

Herbert W. Lewis, the Superintendent of Charities, has written to the Commissioners making certain suggestions regarding the unexpended balances in the various allotments of the fund appropriated for the relief of the poor. He refers especially to the contract now in force between the Aid Association for the Blind and the Commissioners of the District.

Under this contract it is stipulated that adult blind persons, properly dependent upon the District of Columbia, are to be maintained in the home of the association, the District paying for such service at a rate not exceeding 85 cents a day in each case. Mr. Lewis states that when the fund of \$13,000 for the relief of the poor for the fiscal year 1900 was allotted to the various purposes for which it is now being expended, the sum of \$1,000 was set aside for the purpose of paying for the care of the adult blind. "Owing to delays," he says, "in the preparations for receiving such dependent persons, the Aid Association for the Blind rendered no service to the District until about the middle of February, 1900, and has, for that reason, been unable to earn under its contract all of the sum set aside for the care of the adult blind. The surplus in other years has occurred in amounts allotted for salaries of physicians to the poor and for printing and medicines needed in connection with their work. There will be this additional balance this year probably amounting to not less than \$700, though the exact amount cannot now be stated.

The allotment of \$300 heretofore made annually to the Aged Woman's Home was this year withheld in the expectation that it would be necessary to retain it in order to make up the sum required to care for the blind." In view of the foregoing facts Mr. Lewis recommends the following allotment of the total balance from the appropriation for

the relief of the poor for the fiscal year 1900:

To the Aged Woman's Home, \$200; to the Citizens' Relief Association, \$300; to the Aid Association for the Blind, \$490; and to the Women's Union Christian Association, Home for the Friendless Colored Girls, Erie Street, the remainder of the balance not yet determined, but about \$200.

The recommendations of the Superintendent of Charities have been approved by Commissioner Macfarland, who has immediate supervision of the matter of Charities, and it is expected that the other Commissioners will concur in the decision. Dr. William C. Woodward, the District Health Officer, has written to the Commissioners requesting an increase in the allotment to his department from the contingent fund for the fiscal year of 1901. He says:

"In view of the provision by the recent Appropriations act for an additional veterinary inspector for the Health Department, for the purpose of securing a more extended and efficient inspection of dairies and dairy farms, I have the honor to request that the allotment to the Health Department from the appropriation for the contingent fund be increased, so as to provide for the expense incident to such extension of service.

"It is desired to keep one of the veterinary inspectors as close as possible in the outlying territory, from which the milk supply of this city comes, and in order to do this it will be necessary to pay railroad fare, board bills, and horse hire. These will represent an additional outlay for the Health Department, which, unless special provision is made as above requested, can be met only at the expense of some other branch of the service."

The Commissioners have the request of the Health Officer under advisement, and it will be considered when the allotment of the contingent fund is made. A petition signed by B. F. Peters and others, praying for the improvement of the roadway on that street between E and F Streets. The petition sets forth the fact that in the general improvement of the street in that quarter of the city Sixth Street has been overlooked. The petitioners feel that under any well-defined system of equitable distribution of public improvements their prayer should be granted.

In forwarding the petition to the Commissioners Mr. Peters states that he has been delegated by the citizens whose names appear in the petition to do so. For some reason, he states, unknown to them, Sixth Street has been neglected and other streets farther from the center of population have been improved. "We have waited patiently and each succeeding year we have expected that your honorable body would direct that our turn had come, only to be disappointed."

At the request of the Commissioners C. B. Hunt, the Computing Engineer, has handed in a report on the petition, in which he says: "The estimated cost of paving this roadway with asphalt or asphalt block is \$4,500. In accordance with the establishment has been approved by the Commissioners and it is understood that the petitioners will be informed that the improvement asked will be reached in regular turn in the schedules for paving streets."

### SOCIAL AND PERSONAL

The reception held last night by the President and Mrs. McKinley in compliment to the physicians in attendance at the convention of the American Institute of Homoeopathy and their wives, was a signal pleasant feature of their visit to the National Capital. The Marine Band and the Grand Army Band of Canton, which was in the city, en route home, furnished the music.

The decorations of the East Room consisted entirely of palms and other tropical foliage plants that filled the niches between the windows and the recesses over the doors. In the Blue Room pink and white hydrangeas, with orchids and carnations, were grouped on the mantel and on the fauvel under the chandelier, while the hard knocks the boys give them; instead of 35c—for 19c.

Four buglers of the Marine Band heralded the approach of the Presidential party, who descended the stairway preceded by Colonel Bingham and Major McCauley, each wearing the full uniform of his rank. President and Mrs. McKinley, followed by the Cabinet members who are now in the city, passed along the corridor and through the golden gate into the Blue Room. Mrs. McKinley, as usual, seated herself in the center of the room, and the visitors by Mrs. Hitchcock, who was the only lady of the Cabinet present. She wore an artistic and becoming gown of white and blue striped satin, with white effects in rich lace.

Miss Eleanor Thomas Washington was among the other bridesmaids at the wedding of Miss Elizabeth St. Clair Smith and Mr. Eustace Leroy Williams, who were married Thursday evening at the bride's home in Berryville, Va.

Miss Lucie Anna Hendrickson is visiting friends in Piedmont, W. Va., where she went to serve as bridesmaid at the wedding of Miss Mary Jane Slatton and Dr. J. Gilbert Abbott, of that place.

The marriage of Mr. George E. Pitman, of the Government Printing Office, and Miss Annie W. Eppes occurred Wednesday in Richmond at the residence of the bride's parents, Mr. and Mrs. George F. Eppes.

Mr. and Mrs. Pitman will make a northern trip before coming to Washington, where they will reside.

Mr. Reginald de Koven, who has given up his residence in New York and taken one in this city, has returned to New York for the summer to devote his entire time to the score of his opera, "The Quaker Girl," which he is collaborating with Harry B. Smith.

### AN EXCURSIONIST SHOT.

Baltimore Man Fatally Wounded at Round Bay.

ANNAPOLIS, Md., June 22.—At Round Bay, on the Baltimore and Annapolis Short Line Railroad, where a thousand or more colored excursionists from Baltimore, Washington, and elsewhere had gathered yesterday, William Holly, colored, was shot and probably fatally injured. Coroner Charles G. Feldermeier summoned a jury supposing that the man had been killed.

Holly, however, was brought in alive. He was taken to jail on a stretcher and made a deposition in which he excoriated the negro who shot him, saying that the shooting was accidental. Stimulants were administered in order to get the man to tell his story. Many who heard believed he desired to shield his friend. Bob, a man live in Baltimore. Jail Physician Dr. W.
